

Ultra Retract-O-Matic for EID Tags APP-RET-ULTRA

General Description

The new Ultra Retract-O-Matic applicator is used to apply the Ultra Electronic Identification Tags.

The Ultra Retract-O-Matic Applicator features a contoured pistol-grip handle. It is designed to retract the applicator pin out of the animal's ear before it can react. The anvil can be positioned at any angle on the applicator for left or right application variables.

Construction

The body and finger grip is made of a high strength injection molded plastic. The anvil is made of high quality die cast aluminum. All internal components are heat treated and precision ground for long life.

Available Conversion Kit

Convert any Retract-O-Matic to an EID applicator with the optional conversion kit.

Kit Includes:

- Red Anvil with special EID jaws
- Special Modified Pin
