

Global Extended Small Male GESM

General Description

The Allflex Extended small male is precisely engineered for strength and stability. The Extended small male has been reinforced at the critical stress points and is manufactured of high grade polyurethane. It features a self-piercing tip for quick and easy application of Allflex tags.

Construction

The small male is made of Polyurethane with a Zamak metal tip. The Stem length is 17mm (.57"). The Extended small male weighs 2.0 grams.

Performance Capabilities

The following EID Tags use the Extended Small Male as a standard. This added stem length allows for the proper air gap for retention and healing.

HDX High Performance Ultra EID Tag (For All Cattle applications)

FDX Ultra Bovine EID Tag (For Cattle application)

HDX High Performance Reusable EID Tag (For All Cattle applications)

FDX Lightweight Ultra Swine EID Tag (For Boar and Sow Application)

(The Default color is White unless otherwise specified)
